

6.2. Service Menu

6.2.1. Entering to Service Menu

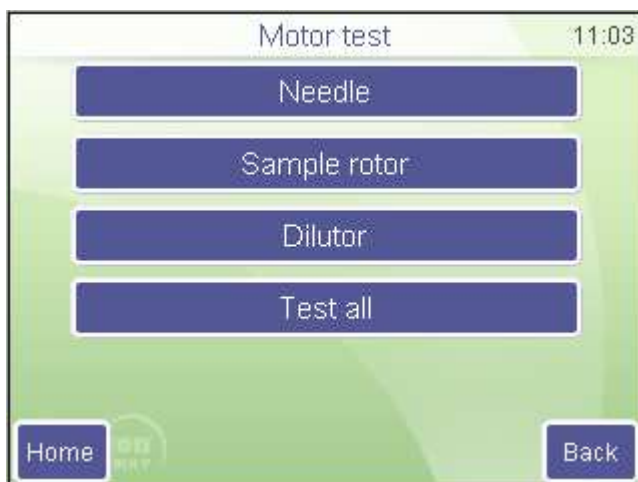

There is a Service menu for servicing and operation checking purposes. The entry point is in **Maintenance** → **Diagnostics** → **Service**

The service menu is accessible for only SERVICE user. To login as service user please see chapter 6.2.5.

6.2.2. Troubleshooting

With Troubleshooting options provide tools to test mechanical components.

From the Motor Test submenu the service person could run each or all motor tests.
